**PRECONSENT: Info**

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey for more than 40 years to keep a historical record of the concerns, experiences, attitudes and practices of Americans. Your household was randomly selected from addresses across the nation for participation. The information collected is used by policy makers, scientific researchers, government officials and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like work, the family, government, science, and health. Some topics may be sensitive for you, and you can decline to answer any question. At the end of the survey, I will complete a brief section of observations, including my impressions of how the interview went and where it took place, how long the interview took, and who else was present.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to talk about things that matter to them. Which questions are asked depends partly on chance, and partly on your answers to other questions. The interview takes from about 60 to 90 minutes for most people. You may also be contacted in 2020 to participate in a future round of the General Social Survey.

However, participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey.

Any future participation on your part will again require us to gain your consent.

(IF NEEDED: We can break up the interview into different sections if that will make it easier for you.)

PRESS ENTER TO CONTINUE

**CONSENT: Categorical (Single)**

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs. If you decline to answer a question or a portion of the interview, data from other questions you have answered may be used in these summary statistics.
We have received a Certificate of Confidentiality from the National Institutes of Health. This means that your answers will be kept confidential, even if the researchers receive a court order or subpoena to release information that could identify you. The protection offered by the certificate does not stop the researchers from voluntarily reporting information about suspected or known sexual, physical, or other abuse of a child or elderly person, or a participant's threats of violence to self or others. If you voluntarily give your written consent for anyone to receive information about your participation in this research, then we may not use the certificate to withhold this information.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social Survey, you can contact the project hotline at 1-888-837-8988.

Parts of this interview may be recorded for quality control purposes. This will not compromise the strict confidentiality of your responses. You can stop the recording at any time. May I continue with the recording?

As part of another study that will be conducting a survey of churches, synagogues, mosques, and other religious congregations, we would like to call the place where you attend religious services, or a leader of that congregation. The survey of congregations will ask about general religious and social activities and will not have anything to do with you personally or with your answers to this survey. Your answers to this questionnaire will be kept confidential, and your name will not be used in any way. Please look up or tell me how you would look up the place where you attend religious services on the web or in a telephone book.

STOCKOPS: Categorical (Single)

Do you currently hold any stock options in your company (vested or unvested)?

IF ASKED: A stock option is a right to purchase stock at a set price for several years into the future, typically ten years. For example, one stock option at $10 means that you can purchase your company stock for $10 anytime over ten years. A stock option does not include a plan in which there are periodic deductions from payroll to set aside money to purchase shares at the end of an offering period. That is typically called an Employee Stock Purchase Plan.

IF ASKED: "Vested" means that you own the stock option and can exercise it at any time and "unvested" means that you have to stay with your company a certain amount of time until you own the stock option and can exercise it at any time.

ADMINCONSENT: Categorical (Single)
One important purpose of our survey is to gather information about our society in order to explain trends
in attitudes and behaviors. The GSS seeks to support the study of opinion data with more behavioral,
 fact-based information. To do this, we need your permission to search government records that may exist
now or in the future such as Census data, unemployment or social security information, Medicaid and
Medicare, health records and other sources. We would link your interview with that information upon
completion of the survey. Also, we would like to be able to continue combining these data for the
foreseeable future. Each time, in the future, we will remove personally identifiable information after the
linking process, and store anonymous data for the duration of our study. The best way for us to get this
information without taking up any more of your time is to conduct the work in a secure data facility
meeting strict Federal Information Security Management Act requirements, and we need your permission
to proceed. All identifying information will be kept confidential as required by law. If at any time you change your mind, you can contact us at the toll-free number 888-837-8988.

May we try to link government records with your survey answers?

* _a_: {response to SecL_NAME} is {response to SecL_RACE} {response to SecL_SEX_MAN_WOMAN} who has completed {response to SecL_EDUCATION}. During the last month {response to SecL_NAME} has started to drink more than {response to SecL_SEX_HIS_HER} usual amount of alcohol. In fact, {response to SecL_SEX_HE_SHE} has noticed that {response to SecL_SEX_HE_SHE} needs to drink twice as much as {response to SecL_SEX_HE_SHE} used to to get the same effect. Several times, {response to SecL_SEX_HE_SHE} has tried to cut down, or stop drinking, but {response to SecL_SEX_HE_SHE} can't. Each time {response to SecL_SEX_HE_SHE} has tried to cut down, {response to SecL_SEX_HE_SHE} became very agitated, sweaty and {response to SecL_SEX_HE_SHE} couldn't sleep, so {response to SecL_SEX_HE_SHE} took another drink. {response to SecL_SEX_HIS_HER_} family has complained that {response to SecL_SEX_HE_SHE} is often hung-over, and has become unreliable – making plans one day, and canceling them the next.

* _b_: {response to SecL_NAME} is {response to SecL_RACE} {response to SecL_SEX_MAN_WOMAN} who has completed {response to SecL_EDUCATION}. For the last two weeks {response to SecL_NAME} has been feeling really down. {response to SecL_SEX_HE_SHE_} wakes up in the morning with a flat, heavy feeling that sticks with {response to SecL_SEX_HIM_HER} all day long. {response to SecL_SEX_HE_SHE_} isn't enjoying things the way {response to SecL_SEX_HE_SHE} normally would. In fact nothing seems to give {response to SecL_SEX_HIM_HER} pleasure. Even when good things happen, they don't seem to make {response to SecL_NAME} happy. {response to SecL_SEX_HE_SHE_} pushes on through {response to SecL_SEX_HIS_HER_} days, but it is really hard.
The smallest tasks are difficult to accomplish. {response to SecL_SEX_HE_SHE} finds it hard to concentrate on anything. {response to SecL_SEX_HE_SHE} feels out of energy and out of steam. And even though {response to SecL_NAME} feels tired, when night comes {response to SecL_SEX_HE_SHE} can't get to sleep. {response to SecL_NAME} feels pretty worthless, and very discouraged. {response to SecL_NAME}'s family has noticed that {response to SecL_SEX_HE_SHE} hasn't been {response to SecL_SEX_HIM_HER}self for about the last month, and that {response to SecL_SEX_HE_SHE} has pulled away from them. {response to SecL_NAME} just doesn't feel like talking.

{response to SecL_NAME} is {response to SecL_RACE} {response to SecL_SEX_MAN_WOMAN} who has completed {response to SecL_EDUCATION}. Up until a year ago, life was pretty okay for {response to SecL_NAME}. But then, things started to change. {response to SecL_SEX_HE_SHE} thought that people around {response to SecL_SEX_HIM_HER} were making disapproving comments, and talking behind {response to SecL_SEX_HIS_HER} back. {response to SecL_NAME} was convinced that people were spying on {response to SecL_SEX_HIM_HER} and that they could hear what {response to SecL_SEX_HE_SHE} was thinking. {response to SecL_NAME} lost {response to SecL_SEX_HIS_HER} drive to participate in {response to SecL_SEX_HIS_HER} usual work and family activities and retreated to {response to SecL_SEX_HIS_HER} home, eventually spending most of {response to SecL_SEX_HIS_HER} day in {response to SecL_SEX_HIS_HER} room. {response to SecL_NAME} became so preoccupied with what {response to SecL_SEX_HE_SHE} was thinking that {response to SecL_SEX_HE_SHE} skipped meals and stopped bathing regularly. At night, when everyone else was sleeping, {response to SecL_SEX_HE_SHE} was walking back and forth in {response to SecL_SEX_HIS_HER} room. {response to SecL_NAME} was hearing voices even though no one else was around. These voices told {response to SecL_SEX_HIM_HER} what to do and what to think. {response to SecL_SEX_HE_SHE} has been living this way for six months.

{response to SecL_NAME} is {response to SecL_RACE} {response to SecL_SEX_MAN_WOMAN} who has completed {response to SecL_EDUCATION}. About a year ago, {response to SecL_NAME} was prescribed prescription pain medication for back pain {response to SecL_SEX_HE_SHE} developed following a car accident. {response to SecL_SEX_HE_SHE} took the pain medication regularly, and after a few weeks found that {response to SecL_SEX_HE_SHE} increasingly felt the desire for more, even though {response to SecL_SEX_HIS_HER} back pain had improved. {response to SecL_NAME} went to several different doctors to get more prescriptions from them and then started getting them from a friend. Each time {response to SecL_NAME} tried to cut down, {response to SecL_SEX_HE_SHE} felt anxious and became sweaty and nauseated for hours on end and also could not sleep. These symptoms lasted until {response to SecL_SEX_HE_SHE} resumed taking the prescription pain medication. {response to SecL_NAME}'s friends complained that {response to SecL_SEX_HE_SHE} had become unreliable -- making plans one day, and canceling them the next. {response to SecL_SEX_HIS_HER} family said {response to SecL_SEX_HE_SHE} had changed and that they could no longer
count on \{response to SecL\_SEX\_HIM\_HER\}. \{response to SecL\_NAME\} has been living this way for six months.

\{_e\}

\{response to SecL\_NAME\} is \{response to SecL\_RACE\} \{response to SecL\_SEX\_MAN\_WOMAN\} who has completed \{response to SecL\_EDUCATION\}. Up until a year ago, life was pretty okay for \{response to SecL\_NAME\}. While nothing much is going wrong in \{response to SecL\_NAME\}'s life \{response to SecL\_SEX\_HE\_SHE\} sometimes feels worried, a little sad, or has trouble sleeping at night. \{response to SecL\_NAME\} feels that at times things bother \{response to SecL\_SEX\_HIM\_HER\} more than they bother other people and that when things go wrong, \{response to SecL\_SEX\_HE\_SHE\} sometimes get nervous or annoyed. Otherwise \{response to SecL\_NAME\} is getting along pretty well. \{response to SecL\_SEX\_HE\_SHE\} enjoys being with other people and although \{response to SecL\_NAME\} sometimes argues with \{response to SecL\_SEX\_HIS\_HER\} family, \{response to SecL\_NAME\} has been getting along pretty well with \{response to SecL\_SEX\_HIS\_HER\} family.
