A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in the group stand.

83. Now look at Card 14. Some people think that the government in Washington is trying to do too many things that should be left to individuals and private businesses. SHOWCARD C2

Box A and Box B show pictures of houses. Box C is for any kind of house not shown in the pictures.
C2. Thinking back to the time when you were born, tell me which box shows the kind of house your family lived in at that time: A, B, or C? We just want you to choose one box.

In a moment, I am going to show you another card with three boxes. Again, you answer by just picking a box. The question is about immigration, but it does not “zero in” on anything that people might not want to tell us. Here’s the card—which I need to explain before you answer.

SHOWCARD C4

As you can see, Box A at the top shows the immigration card for permanent legal residence in the United States; it is also called a “green card.” It is an official valid card issued to you by the United States government. Box B shows some drawings for U.S. citizen and other immigration categories; I would be happy to explain these if you like. Box C is for categories not listed in A or B.

C4. Thinking of your current immigration status right now, is that in Box A, B, or C? If it’s in Box B, we do not want to know which specific category applies to you, and there will be no more questions about Box B. (IF RESPONDENT ASKS WHY, SAY: Because right now we are focusing on Box A.)

INSTRUCTIONS:

Character, personality, and many types of behavior are influenced both by the genes people inherit from their parents and by what they learn and experience as they grow up. For each of the following descriptions, we would like you to indicate what percent of the person’s behavior you believe is influenced by the genes they inherit, and what percent is influenced by their learning and experience and other aspects of their environment.

The boxes on handcard D1 are arranged so that the first box on the LEFT (which is numbered 1) represents 100% genetic influence (and 0% environment). The next box (numbered 2) represents 95% genes (and 5% environment), and so on. The RIGHTMOST box (numbered 21) represents 100% environmental influence (and no genetic influence). **After each description, please type the number of the box that comes closest to your answer.**

When you have finished, return the computer to the interviewer. Your answers are confidential.
Please use the numbered scale on handcard D1 to indicate, FOR EACH OF THE BEHAVIORS DESCRIBED, what percent of the person’s behavior you think is influenced by the genes they inherit, and what percent is influenced by their learning and experience. After each question, type the number of the box that comes closest to your answer. Remember, the higher the number, the more you think the behavior is influenced by learning and experience; the lower the number, the more you think it is influenced by genes.
